Walnut Cake

Preparation time: 45 minutes
Cooking time: 16-20 minutes
Overall inc. cooling: 1.5 hour

Ingredients
For the cake:
200g plain flour
1 pinch salt
1 generous teaspoon baking powder
100g butter, softened
225g caster sugar
1 teaspoon vanilla extract
2 eggs, separated
100g shelled walnuts, roughly chopped
100ml milk

For the vanilla buttercream filling:
75g butter, softened
125g icing sugar, sifted
1/2 teaspoon vanilla extract

Method
1. Preheat the oven to gas mark 4, 180°C, 160°C fan
2. Grease and line the bottoms of two 20cm cake tins
3. Sift the flour with the salt and baking powder into bowl
4. Cream the butter in a large bowl until soft
5. Add the sugar and vanilla extract and beat until the mixture is light and fluffy
6. Beat in the egg yolks and stir in the chopped walnuts
7. Fold in a quarter of the flour and milk into the mixture, alternating each, until incorporated.
8. In a separate bowl, whisk the egg whites until they are stiff
9. Stir a quarter into the cake mixture and then gently fold in the rest
10. Divide the mixture between the tins, making a slight hollow in the centre of each so that the cake rises evenly rather than forming a peak
11. Bake in the oven for about 16–20 minutes until firm to the touch or until a skewer inserted into the centre of each cake comes out clean
12. Remove from the oven and allow to sit for five minutes before turning onto a wire rack to cool
13. For the vanilla buttercream filling: cream the butter until very soft
14. Beat in the icing sugar and the vanilla extract
15. When the cake is cold, put the layers together with the filling
16. Store in an airtight container
